

PUBLIC HEALTH DEPARTMENT[641]

Adopted and Filed

Pursuant to the authority of Iowa Code sections 139A.8 and 135.11(12), the Iowa Department of Public Health hereby amends Chapter 7, “Immunization and Immunization Education: Persons Attending Elementary or Secondary Schools, Licensed Child Care Centers or Institutions of Higher Education,” Iowa Administrative Code.

The current administrative rules in Chapter 7 provide for the immunization requirements of persons attending elementary or secondary school and licensed child care centers in Iowa. These amendments implement changes made to Iowa Code section 139A.8 by 2016 Iowa Acts, House File 2460, section 92, which adds a requirement for meningococcal vaccine upon students’ entry into the seventh and twelfth grades. Additional amendments include the addition of a definition of a pharmacist, provisions to terminate an enrolled user’s access to the Immunization Registry Information System (IRIS) for failure to comply with the release of information and confidentiality requirements, provisions to allow a pharmacist to release immunization and health screening information, and language changes to make the release of immunization and health screening sections consistent. The immunization requirements table is replaced with a new table that adds a vaccination requirement for meningococcal vaccine for students in the seventh and twelfth grades. Additional changes were made to the table to clarify immunization requirements of persons attending elementary or secondary schools and licensed child care centers based upon Advisory Committee on Immunization Practices (ACIP) recommendations and questions for health care providers and schools.

Notice of Intended Action was published in the Iowa Administrative Bulletin as **ARC 2732C** on September 28, 2016. Two public comments, supportive of the proposed amendments, were received. These amendments are identical to those published under Notice of Intended Action.

The State Board of Health adopted these amendments on November 9, 2016.

After analysis and review of this rule making, no impact on jobs has been found.

These amendments are intended to implement Iowa Code chapter 139A and Iowa Code section 139A.8 as amended by 2016 Iowa Acts, House File 2460, section 92.

These amendments will become effective on January 11, 2017.

The following amendments are adopted.

ITEM 1. Adopt the following **new** definition of “Pharmacist” in rule **641—7.1(139A)**:

“*Pharmacist*” means a person licensed to practice pharmacy pursuant to Iowa Code chapter 155A.

ITEM 2. Rescind subrule 7.4(1) and adopt the following **new** subrule in lieu thereof:

7.4(1) Applicants enrolled or attempting to enroll shall have received the following vaccines in accordance with the doses and age requirements below:

IMMUNIZATION REQUIREMENTS

Applicants enrolled or attempting to enroll shall have received the following vaccines in accordance with the doses and age requirements listed below. If, at any time, the age of the child is between the listed ages, the child must have received the number of doses in the "Total Doses Required" column.

Institution	Age	Vaccine	Total Doses Required
Licensed Child Care Center	Less than 4 months of age	This is not a recommended administration schedule, but contains the minimum requirements for participation in licensed child care. Routine vaccination begins at 2 months of age.	
	4 months through 5 months of age	Diphtheria/Tetanus/Pertussis	1 dose
		Polio	1 dose
		<i>haemophilus influenzae</i> type B	1 dose
		Pneumococcal	1 dose
	6 months through 11 months of age	Diphtheria/Tetanus/Pertussis	2 doses
		Polio	2 doses
		<i>haemophilus influenzae</i> type B	2 doses
		Pneumococcal	2 doses
	12 months through 18 months of age	Diphtheria/Tetanus/Pertussis	3 doses
		Polio	2 doses
		<i>haemophilus influenzae</i> type B	2 doses if the applicant received 1 dose before 15 months of age; or 1 dose if received when the applicant is 15 months of age or older.
		Pneumococcal	3 doses if the applicant received 1 or 2 doses before 12 months of age; or 2 doses if the applicant has not received any previous doses or has received 1 dose on or after 12 months of age.
	19 months through 23 months of age	Diphtheria/Tetanus/Pertussis	4 doses
		Polio	3 doses
<i>haemophilus influenzae</i> type B		3 doses, with the final dose in the series received on or after 12 months of age; or 2 doses if only 1 dose received before 15 months of age; or 1 dose if received when the applicant is 15 months of age or older.	
Pneumococcal		4 doses if the applicant received 3 doses before 12 months of age; or 3 doses if the applicant received 1 or 2 doses before 12 months of age; or 2 doses if the applicant has not received any previous doses or has received 1 dose on or after 12 months of age.	
Measles/Rubella ¹		1 dose of measles/rubella-containing vaccine received on or after 12 months of age; or the applicant demonstrates a positive antibody test for measles and rubella from a U.S. laboratory.	
Varicella		1 dose received on or after 12 months of age, unless the applicant has a reliable history of natural disease.	
24 months of age and older	Diphtheria/Tetanus/Pertussis	4 doses	
	Polio	3 doses	
	<i>haemophilus influenzae</i> type B	3 doses, with the final dose in the series received on or after 12 months of age; or 2 doses if only 1 dose received before 15 months of age; or 1 dose if received when the applicant is 15 months of age or older. Hib vaccine is not required for persons 60 months of age or older.	
	Pneumococcal	4 doses if the applicant received 3 doses before 12 months of age; or 3 doses if the applicant received 2 doses before 24 months of age; or 2 doses if the applicant received 1 dose before 24 months of age; or 1 dose if the applicant did not receive any doses before 24 months of age. Pneumococcal vaccine is not required for persons 60 months of age or older.	
	Measles/Rubella ¹	1 dose of measles/rubella-containing vaccine received on or after 12 months of age; or the applicant demonstrates a positive antibody test for measles and rubella from a U.S. laboratory.	
	Varicella	1 dose received on or after 12 months of age, unless the applicant has had a reliable history of natural disease.	
Elementary or Secondary School (K-12)	4 years of age and older	Diphtheria/Tetanus/Pertussis ^{4, 5}	3 doses, with at least 1 dose of diphtheria/tetanus/pertussis-containing vaccine received on or after 4 years of age if the applicant was born on or before September 15, 2000 ² ; or 4 doses, with at least 1 dose of diphtheria/tetanus/pertussis-containing vaccine received on or after 4 years of age if the applicant was born after September 15, 2000, but on or before September 15, 2003 ² ; or 5 doses with at least 1 dose of diphtheria/tetanus/pertussis-containing vaccine received on or after 4 years of age if the applicant was born after September 15, 2003 ^{2, 3} ; and 1 time dose of tetanus/diphtheria/acellular pertussis-containing vaccine (Tdap) for the applicant in grades 7 and above, if born after September 15, 2000; regardless of the interval since the last tetanus/diphtheria-containing vaccine.
		Polio	3 doses, with at least 1 dose received on or after 4 years of age if the applicant was born on or before September 15, 2003 ⁷ ; or 4 doses, with at least 1 dose received on or after 4 years of age if the applicant was born after September 15, 2003. ⁸ Polio vaccine is not required for persons 18 years of age or older.
		Measles/Rubella ¹	2 doses of measles/rubella-containing vaccine; the first dose shall have been received on or after 12 months of age; the second dose shall have been received no less than 28 days after the first dose; or the applicant demonstrates a positive antibody test for measles and rubella from a U.S. laboratory.
		Hepatitis B	3 doses
		Varicella	1 dose received on or after 12 months of age if the applicant was born on or after September 15, 1997, but born on or before September 15, 2003, unless the applicant has had a reliable history of natural disease; or 2 doses received on or after 12 months of age if the applicant was born after September 15, 2003, unless the applicant has a reliable history of natural disease. ⁸
		Meningococcal (A, C, W, Y)	1 dose of meningococcal vaccine received on or after 10 years of age for the applicant in grades 7 and above, if born after September 15, 2004; and 2 doses of meningococcal vaccines for the applicant in grade 12, if born after September 15, 1999; or 1 dose if received when the applicant is 16 years of age or older.

¹ Mumps vaccine may be included in measles/rubella-containing vaccine.

² DTaP is not indicated for persons 7 years of age or older, therefore, a tetanus and diphtheria-containing vaccine should be used.

³ The 5th dose of DTaP is not necessary if the 4th dose was administered on or after 4 years of age.

⁴ Applicants 7 through 18 years of age who received their 1st dose of diphtheria/tetanus/pertussis-containing vaccine before 12 months of age should receive a total of 4 doses, with one of those doses administered on or after 4 years of age.

⁵ Applicants 7 through 18 years of age who received their 1st dose of diphtheria/tetanus/pertussis-containing vaccine at 12 months of age or older should receive a total of 3 doses, with one of those doses administered on or after 4 years of age.

⁶ If an applicant received an all-inactivated poliovirus (IPV) or all-oral poliovirus (OPV) series, a 4th dose is not necessary if the 3rd dose was administered on or after 4 years of age.

⁷ If both OPV and IPV were administered as part of the series, a total of 4 doses are required.

⁸ Administer 2 doses of varicella vaccine, at least 3 months apart, to applicants less than 13 years of age. Do not repeat the 2nd dose if administered 28 days or greater from the 1st dose. Administer 2 doses of varicella vaccine to applicants 13 years of age or older at least 4 weeks apart. The minimum interval between the 1st and 2nd dose of varicella for an applicant 13 years of age or older is 28 days.

ITEM 3. Adopt the following **new** subrule 7.11(5):

7.11(5) *Suspend or terminate access.* The department may suspend or terminate an enrolled user's access consistent with department policy if the user violates this chapter, the IRIS Authorized Site Agreement-Organization, the IRIS Authorized Individual User Agreement, or the IRIS Security and Confidentiality Policy. The department shall approve, suspend, terminate, and reinstate user access in accordance with this chapter and department policy.

ITEM 4. Amend subrules 7.12(1) to 7.12(5) as follows:

7.12(1) *Between a physician, physician assistant, nurse, certified medical assistant, pharmacist, or screening provider and the elementary, secondary, or postsecondary school or licensed child care center that the student attends.* A physician, a physician assistant, a nurse, a certified medical assistant, a pharmacist, or a screening provider shall disclose a student's or patient's immunization or health screening information, including the name, date of birth, and demographic information, ~~the month, day, year and vaccine(s) administered;~~ vaccine(s) administered and the month, day and year of administration; health screening results; and clinic source and location, to an elementary, secondary, or postsecondary school or a licensed child care center upon written or verbal request from the elementary, secondary, or postsecondary school or licensed child care center. Written or verbal permission from a student or parent is not required to release this information to an elementary, secondary, or postsecondary school or licensed child care center that the student attends.

7.12(2) *Among physicians, physician assistants, nurses, certified medical assistants, pharmacists or screening providers.* Immunization or health screening information, including the student's or patient's ~~last name, first name, date of birth, and demographic information, the month, day, year and vaccine(s) administered;~~ vaccine(s) administered and the month, day and year of administration; health screening results; and clinic source and location, shall be provided by a physician, physician assistant, nurse, certified medical assistant, pharmacist, or screening provider to another health care provider without written or verbal permission from the student, parent, guardian or patient.

7.12(3) *Among an elementary school, secondary school, postsecondary school, and licensed child care center that the student attends.* An elementary school, secondary school, postsecondary school, and licensed child care center shall disclose a student's immunization or health screening information, including the student's ~~last name, first name, date of birth, and demographic information, the month, day, and year of vaccine(s) administered;~~ vaccine(s) administered and the month, day and year of administration; health screening results; and clinic source and location, to another elementary school, secondary school, postsecondary school, and licensed child care center that the student attends. Written or verbal permission from a student, or if the student is a minor, the student's parent or guardian, is not required to release this information to an elementary school, secondary school, postsecondary school, and licensed child care center that the student attends.

7.12(4) *Among the department and a physician, physician assistant, nurse, certified medical assistant, pharmacist, screening provider, elementary school, secondary school, postsecondary school, and licensed child care center.* A student's or patient's immunization or health screening information, including name, date of birth, grade, and demographic information; vaccine(s) administered and the month, day and year of administration; and health screening results, clinic source, and location, all in a format specified by the department, shall be disclosed upon written or verbal request among the department, physicians, physician assistants, nurses, certified medical assistants, pharmacists, screening providers, elementary schools, secondary schools, postsecondary schools, and licensed child care centers. Written or verbal permission from a student, patient, parent, or guardian is not required to release this information.

7.12(5) *Among the department and physicians, physician assistants, nurses, resettlement agencies, federal, state, and local government agencies, and certified medical assistants conducting refugee health screenings.* Refugee health screenings shall be disclosed only as indicated in this rule. Immunization or health screening information, including the patient's ~~last name, first name, date of birth, and demographic information;~~ the vaccine(s) administered and the month, day, and year of administration; health screening results; and clinic source and location, shall be disclosed upon written or verbal request among the

department, physicians, physician assistants, nurses, certified medical assistants, resettlement agencies, federal, state, and local government agencies, or screening providers to another health care provider or the department. Written or verbal permission from the parent, guardian or patient is not required to release this information.
